

# Brad Lancaster's Additional Work with & for Municipalities

## Tucson, AZ

Member of Citizen Advisory Committees to craft & revise the following municipal policies:

- Greywater Stub-out Ordinance (2011 & 2014)
- Commercial Landscape Irrigation Ordinance (by which a minimum of 50% of landscape irrigation must come from harvested rainwater) (2011)
- Rainwater Harvesting Rebate Program (2012 & 2014)

## Los Angeles, CA

In conjunction with Water LA (2013 & 2014):

- Help draft water-harvesting guidance manuals for rainwater, greywater, and stormwater harvesting
- Consult on Woodman Median Project to remediate failures in the system (onsite)

## La Paz & Cd. Obregón, Mexico

Presentations to and consultations with the City of La Paz (2013) and Ciudad Obregón (2014), and direction of pilot-project installation of streetside water-harvesting features (including curb cuts) which became prototypes for both municipalities

## Municipality-Supporting Group Publications:

Model Design Manual for Living Streets, Los Angeles County (2011)

Primary contributions appear in Chapter 11 on Streetscape Ecosystem

[www.modelstreetdesignmanual.com](http://www.modelstreetdesignmanual.com)
