

**Turn water scarcity
into abundance**

**Presentation & book signing
with Brad Lancaster**

**Tuesday, November 19 - 6:00 pm
El Sol Theatre**

406 N. Bullard Street, Silver City, NM 88061

**\$5 suggested donation,
though no one turned away due to lack of funds**

This dynamic presentation shares inexpensive, and highly effective, strategies that make the most of free on-site resources—such as the harvest of rainwater, stormwater, greywater, air conditioning condensate, and more. You can implement all at home, in your landscape, your neighborhood, and beyond with numerous benefits such as flood control; reduced bills; local food production; beauty; street tree orchards; wildlife habitat; regenerating the flows of springs, creeks, wetlands, and rivers; community-building; and joy.

Stories and highlights from the newly revised, full-color editions of Brad's award-winning books will be featured. The books will be available for sale at deep discount!
