

Nevada Naturalist Program 2019 Lecture Series

Presents

Turn Water Scarcity Into Abundance

Join award-winning author, Brad Lancaster, as he shares inexpensive, and highly effective, strategies that make the most of free on-site resources—such as the harvest of rainwater, storm water, greywater, air conditioning condensate, and more.

All can be implemented at home, in your landscape, your neighborhood and beyond.

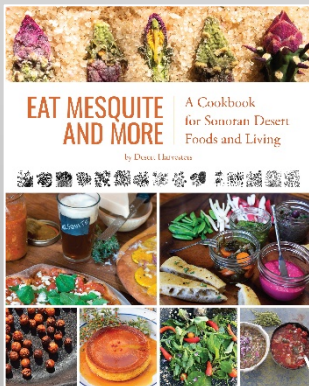

Stories and highlights from the newly revised, full-color editions of Brad's award-winning books will be featured.

There will be a book signing immediately following the lecture. A limited number of books will be available for purchase for at deep discount on a first come, first serve basis.

Where: University of Nevada Lifelong Learning Center, 8050 Paradise Rd., Las Vegas, NV 89123
Classrooms A, C, & D

When: Monday, December 2, 2019
6:00 PM – 7:30 PM

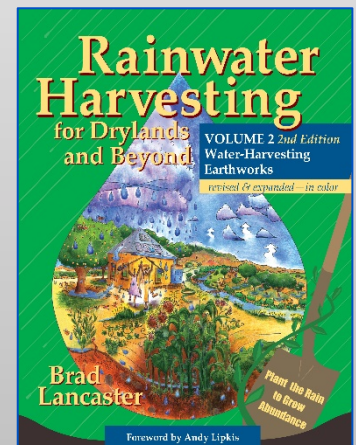

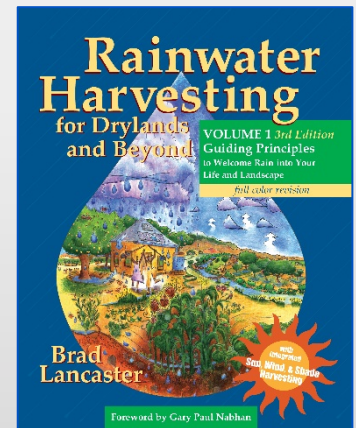

To RSVP register Online at Eventbrite:
